EXPERIENCE

Senior Product Designer

WestJet Airlines • August 2026 - Present

- Leading the end-to-end redesign of the airlines seat-selection experience, from discovery through delivery. Producing wireframes, prototypes, and development-ready designs while shaping product strategy through user research and stakeholder alignment.

Intermediate UX/UI Designer

WestJet Airlines • August 2021 - August 2026

- Led eCommerce design through feature updates and product launches, earning over $80 million in revenue in 2025 alone. Continually evolved the product roadmap to meet business goals.
- Facilitated cross-functional discovery workshops that produced prototypes, aligning with partners in Product and Engineering to surfacing dependencies early.
- Supported leadership decision-making by identifying impacts and dependencies for strategic trade-offs, ensuring operational stability and priorities across the digital roadmaps.
- Provided mentorship to team members, championing the adoption of modern design and documentation practices. Utilizing these skills to create accessible components for the design system.

Product Designer

H.R. MacMillan Space Centre • March 2025 - December 2025

- Led structured coaching and mentorship to student team of two, guiding them through agile workflows, best design practices, and the Product Delivery Life Cycle.
- Managed stakeholder relationships to align technical requirements with the organization's long-term digital strategy.

Creative Director

Imprint Publications • January 2019 - August 2021

- Managed the end-to-end production of over 50 prints while coordinating a cross-functional team of 10 to meet weekly delivery targets.
- Oversaw complex resource allocation and delivery timelines across concurrent projects, supporting a publication program that served thousands of weekly visitors.
